

## Where OMI'S Funding Comes From

Sanford Outreach Mission depends heavily on contributions to operate its two shelters.

OMI's 2019 financial statements reflect \$99,850 in operational revenue last year. Of this, 50 percent came from grants and company contributions, 20 percent from fundraising events and private donations, and 30 percent from churches.

We are grateful for every donation of every amount – we could not serve the homeless in Lee County without your donations!

One area of tremendous support that does not show in a financial statement is the volunteer support. Last year, volunteers contributed 5,675 hours of service – or the equivalent of 4 full-time employees.

## How OMI Spends Its Funding

OMI's board of directors strive to be good stewards of the donations invested in our mission. Last year, operational expenses totaled \$108,159. We spent 52 percent on labor, 18 percent on utilities, 12 percent on facilities maintenance/repairs, and 18 percent on office operation and supplies.
